

### 13. MAP

(Please complete legibly, with as much detail as possible, or attach a suitable alternative. See example in instruction booklet.)

SECTION(S) \_\_\_\_\_ TOWNSHIP \_\_\_\_\_ RANGE \_\_\_\_\_, \_\_\_\_\_ B. & M.

- (1) Show location of the stream or spring, and give name.
- (2) Locate and describe the point of diversion (i. e. the point at which water is to be taken from the stream or spring) in the following way: Begin at the most convenient known corner of the public land survey, such as a section or quarter section corner (if on unsurveyed land more than two miles from a section corner, begin at a mark or some natural object or permanent monument that can be readily found and recognized) and measure directly north or south until opposite the point which it is desired to locate; then measure directly east or west to the desired point. Show these distances in figures on the map as shown in the instructions.
- (3) Show location of the main ditch or pipeline from the point of diversion.
- (4) Indicate clearly the proposed place of use of the water.

### 14. SUPPLEMENTAL INFORMATION

- a. If you are applying for a permit, Environmental Information form WR1-2 should be completed and attached to this form.
- b. If you are registering a small domestic use, Fish and Game Information form WR1-3 should be completed and attached to this form.
- c. If you are applying for underground storage, Supplement 1 to WR 1 (available upon request) should be completed

## 9. GENERAL

- a. Name of the post office most used by those living near the proposed point of diversion is Lee Vining 93541
- b. Does any part of the place of use comprise a subdivision on file with the State Department of Real Estate? YES ☐ NO ☒  
If yes, state name of the subdivision \_\_\_\_\_  
If no, is subdivision of these lands contemplated? YES ☐ NO ☒  
Is it planned to individually meter each service connection? YES ☐ NO ☒ If yes, When? \_\_\_\_\_
- c. List the names and addresses of diverters of water from the source of supply downstream from the proposed point of diversion: City of Los Angeles; Dept. of Water & Power; Aqueduct Div.,  
Room 1466; P.O. Box 111; Los Angeles, CA 90051
- d. Is the source used for navigation, including use by pleasure boats, for a significant part of each year at the point of diversion, or does the source substantially contribute to a waterway which is used for navigation, including use by pleasure boats? YES ☒ NO ☐ If yes, explain: Mono Lake

## 10. EXISTING WATER RIGHT

\*See Attachment #1

Do you claim an existing right for the use of all or part of the water sought by this application? YES ☐ NO ☐  
If yes, complete table below:

Nature of Right (riparian, appropriative, groundwater.)	Year of First Use	Purpose of use made in recent years including amount, if known	Season of Use	Source	Location of Point of Diversion
Groundwater	N/A	None	N/A	N/A	N/A
Riparian	N/A	None	N/A	N/A	N/A

## 11. AUTHORIZED AGENT (Optional)

With respect to ☒ all matters concerning this water right application ☐ those matters designated as follows:

Forest Supervisor ( 619 ) 873 - 5841  
(Name of agent) (Telephone number of agent between 8 a. m. and 5 p. m.)  
Inyo National Forest, 873 N. Main St., Bishop CA 93514  
(Mailing address) (City or town) (State) (Zip code)

is authorized to act on my behalf as my agent.

## 12. SIGNATURE OF APPLICANT

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.  
Dated May 2 19 91, at Bishop  
California

(If there is more than one owner of the project,  
please indicate their relationship.)

Ms. ☒ Mr.  
Miss. Mrs.

  
(Signature of applicant)

Dennis W. Martin  
Forest Supervisor

Ms. Mr.  
Miss. Mrs.

(Signature of applicant)

Additional information needed for preparation of this application may be found in the Instruction Booklet entitled "HOW TO FILE AN APPLICATION TO APPROPRIATE WATER IN CALIFORNIA". If there is insufficient space for answers in this form, attach extra sheets. Please cross-reference all remarks to the numbered item of the application to which they may refer. Send original application and one copy to the STATE WATER RESOURCES CONTROL BOARD, DIVISION OF WATER RIGHTS, P. O. Box 2000, Sacramento, CA 95812-2000, with \$100 minimum filing fee.

### NOTE:

If this application is approved for a permit, a minimum permit fee of \$100 will be required before the permit is issued.  
There is no additional fee for registration of small domestic use.

FOR0053

## 6. PLACE OF USE

- a. Does applicant own the land where the water will be used? YES ☐ NO ☒ Is land in joint ownership? YES ☐ NO ☐  
(All joint owners should include their names as applicants and sign the application.)

If applicant does not own land where the water will be used, give name and address of owner and state what arrangements have been made with the owner.

So. Calif. Edison Co., 1190 Durfee Ave., Suite 250, South El Monte, CA  
91733 - Property will be obtained via a land exchange before the project  
is constructed.

USE IS WITHIN (40-acre subdivision) SW	NW	SE	SW	SECTION 24	TOWNSHIP 1N	RANGE 25E	BASE & MERIDIAN MD	IF IRRIGATED	
								Number of acres	Presently cultivated (Y/N)
NW	1/4 of	SE	1/4	24	1N	25E	MD		
NE	1/4 of	SW	1/4	24	1N	25E	MD		
NW	1/4 of	SW	1/4	24	1N	25E	MD		
NE	1/4 of	SE	1/4	23	1N	25E	MD		
SE	1/4 of	NE	1/4	23	1N	25E	MD		
SW	1/4 of	NE	1/4	23	1N	25E	MD		

(If area is unsurveyed, state the location as if lines of the public land survey were projected, or contact the Division of Water Rights. If space does not permit listing all 40-acre tracts, include on another sheet or state sections, townships and ranges, and show detail on map.)

## 7. DIVERSION WORKS

- a. Diversion will be by gravity by means of \_\_\_\_\_  
(Dam, pipe in unobstructed channel, pipe through dam, siphon, weir, gate,
- b. Diversion will be by pumping from offset well Pump discharge rate 75000gpd Horsepower 7 1/2  
(Sump, offset well, channel, reservoir, etc.) (ols or gpd)
- c. Conduit from diversion point to first lateral or to offstream storage reservoir:

CONDUIT (Pipe or	MATERIAL (Type of pipe or channel lining)	CROSS SECTIONAL DIMENSION (Pipe diameter or ditch depth)	LENGTH	TOTAL LIFT OR FALL		CAPACITY
				Feet	+ or -	
	G.I.P.	4"	3000'	80	+	100 GPM

- d. Storage reservoirs: (For underground storage, complete Supplement 1 to WR1, available upon request.)

Name or number of	DAM				RESERVOIR		
	Vertical height from downstream toe of slope to	Construction	Dam length	Freeboard Dam height above spillway	Approximate surface area when full	Approximate capacity	Maximum water depth

- e. Outlet pipe: (For storage reservoirs having a capacity of 10 acre-feet or more.)

Diameter of outlet pipe (inches)	Length of outlet pipe (feet)	FALL (Vertical distance between entrance and exit of outlet pipe in feet)	HEAD (Vertical distance from spillway to outlet pipe in reservoir in feet)	Estimated storage below outlet pipe entrance (dead storage)

- f. If water will be stored and the reservoir is not at the point of diversion, the maximum rate of diversion to offstream storage will be \_\_\_\_\_ cfs. Diversion to offstream storage will be made by: ☐ Pumping ☐ Gravity

## 8. COMPLETION SCHEDULE

- a. Year work will start 1998 b. Year work will be completed 2000  
c. Year water will be used to the full extent intended 2010 d. If completed, year of first use 1998

5. JUSTIFICATION OF AMOUNT (For small domestic use registration, complete item b. only)

a. IRRIGATION: Maximum area to be irrigated in any one year is \_\_\_\_\_ acres.

CROP	ACRES	METHOD OF IRRIGATION (Sprinklers, flooding, ect.)	ACRE-FEET PER YEAR	NORMAL SEASON	
				Beginning date	Ending date

( 30 gpd/person x 500 units x 5 people/unit = 75,000 gpd ~~summer~~ )

b. DOMESTIC: Number of residences to be served is 500 units. Separately owned? YES ☐ NO ☒  
 Total number of people to be served is 2500. Estimated daily use per person is 30 gpd  
 Total area of domestic lawns and gardens is 0 square feet. (Gallons per day)  
 Incidental domestic uses are 0  
 (Dust control area, number and kind of domestic animals, etc.)

c. STOCKWATERING: Kind of stock \_\_\_\_\_ Maximum number \_\_\_\_\_ Describe type of operation: \_\_\_\_\_

(Feed lot, dairy, range, etc.)

d. RECREATIONAL: Type of recreation: Fishing ☐ Swimming ☐ Boating ☐ Other ☐

e. MUNICIPAL: (Estimated projected use)

POPULATION		MAXIMUM MONTH		ANNUAL USE		
PERIOD	POP.	Average daily use	Rate of diversion (cfs)	Average daily use (gal. per capita)	Acre-foot (per capita)	Total acre-feet
Present						

Month of maximum use during year is \_\_\_\_\_. Month of minimum use during year is \_\_\_\_\_.

f. HEAT CONTROL: The total area to be heat protected is \_\_\_\_\_ net acres.  
 Type of crop protected is \_\_\_\_\_  
 Rate at which water is applied to use is \_\_\_\_\_ gpm per acre.  
 The heat protection season will begin about \_\_\_\_\_ and end about \_\_\_\_\_  
 (Date) (Date)

g. FROST PROTECTION: The total area to be frost protected is \_\_\_\_\_ net acres.  
 Type of crop protected is \_\_\_\_\_  
 Rate at which water is applied to use is \_\_\_\_\_ gpm per acre.  
 The frost protection season will begin about \_\_\_\_\_ and end about \_\_\_\_\_  
 (Date) (Date)

h. INDUSTRIAL: Type of industry is \_\_\_\_\_  
 Basis for determination of amount of water needed is \_\_\_\_\_

i. MINING: The name of the claim is \_\_\_\_\_. Patented ☐ Unpatented ☐  
 The nature of the mine is \_\_\_\_\_. Mineral to be mined is \_\_\_\_\_  
 Type of milling or processing is \_\_\_\_\_ (Name of stream)  
 After use, the water will be discharged into \_\_\_\_\_  
 in \_\_\_\_\_ 1/4 of \_\_\_\_\_ 1/4 of Section \_\_\_\_\_, T \_\_\_\_\_, R \_\_\_\_\_, \_\_\_\_\_ B. & M.  
 (40-acre subdivision)

j. POWER: The total fall to be utilized is \_\_\_\_\_ feet. The maximum amount of water to be used through the penstock  
 is \_\_\_\_\_ cubic feet per second. The maximum theoretical horsepower capable of being generated by the  
 works is \_\_\_\_\_. Electrical capacity is  $(Hp \times 0.746 \times \text{efficiency})$  kilowatts at \_\_\_\_\_ % efficiency.  
 (Cubic feet per second x fall + 8.8)  
 After use, the water will be discharged into \_\_\_\_\_ (Name of stream)  
 in \_\_\_\_\_ 1/4 of \_\_\_\_\_ 1/4 of Section \_\_\_\_\_, T \_\_\_\_\_, R \_\_\_\_\_, \_\_\_\_\_ B. & M. FERC No. \_\_\_\_\_  
 (40-acre subdivision)

k. FISH AND WILDLIFE PRESERVATION AND/OR ENHANCEMENT: YES ☐ NO ☐ If yes, list specific species  
 and habitat type that will be preserved or enhanced in item 17 of Environmental Information form WR 1-2.

l. OTHER: Describe use: \_\_\_\_\_ Basis for determination of amount of water needed is \_\_\_\_\_

MINIMUM FILING FEE: \$100.00

☒ **APPLICATION TO APPROPRIATE WATER BY PERMIT**

(Check one  
box only)

☐ **REGISTRATION OF SMALL DOMESTIC USE APPROPRIATION\***

Request for Partial Assignment of

(If this form is used to register a small domestic use appropriation, the  
terms "application" and "applicant" herein, and in related forms, shall  
mean "registration" and "registrant".)

Application No. 19769 (State Filing)  
(Leave blank)

**1. APPLICANT**

U.S. Inyo National Forest  
(Name of applicant)  
c/o Forest Hydrologist

( 619 ) 873 - 5841  
(Telephone number where you may be reached  
between 8 a. m. and 5 p. m. - include area code)

873 N. Main Street Bishop CA 93514  
(Mailing address) (City or town) (State) (Zip code)

**2. SOURCE**

a. The name of the source at the point of diversion is Lee Vining Creek (underflow)  
(If unnamed, state that it is an unnamed stream, spring, etc.)

tributary to Mono Lake

b. In a normal year does the stream dry up at any point downstream from your project? YES ☐ NO ☒ If yes, during  
what months is it usually dry? From \_\_\_\_\_ to \_\_\_\_\_

What alternate sources are available to your project should a portion of your requested direct diversion season be  
excluded because of a dry stream or nonavailability of water? none

**3. POINTS OF DIVERSION and REDIVERSION**

a. The point(s) of diversion will be in the County of Mono

b.	List all points giving coordinate distances from section corner or other tie as allowed by Board regulations i. e. California Coordinate System	Point is within (40-acre subdivision)	Section	Township	Range	Base and Meridian
	N 80° W - 1,518' from the SE corner of Sec 14, T1N, R25E, MDB&M	SW 1/4 of SE 1/4 1/4 of 1/4 1/4 of 1/4	14	1N	25E	MD

c. Does applicant own the land at the point of diversion? YES ☒ NO ☐

d. If applicant does not own the land at point of diversion, state name and address of owner and what steps have been taken  
to obtain right of access: \_\_\_\_\_

**4. PURPOSE of USE, AMOUNT and SEASON**

a. In the table below, state the purpose(s) for which water is to be appropriated, the quantities of water for each purpose,  
and the dates between which diversions will be made. Use gallons per day if rate is less than 0.025 cubic foot per second  
(approximately 16,000 gallons per day). Purpose must only be "Domestic" for registration of small domestic use.\*

PURPOSE OF USE (Irrigation, Domestic, etc.)	DIRECT DIVERSION				STORAGE		
	QUANTITY		SEASON OF DIVERSION		AMOUNT	COLLECTION SEASON	
	RATE (Cubic feet per second or gallons per day)	AMOUNT (Acre-feet per year)	Beginning Date (Mo. & Day)	Ending date (Mo. & Day)	Acre-feet per annum	Beginning Date (Mo. & Day)	Ending date (Mo. & Day)
Domestic	75000gpd	49.3	April 1	Nov 1			
	2000gpd	0.9	Nov 1	April 1			
		50.2	TOTAL AMOUNT			TOTAL AMOUNT	

b. Total combined amount taken by direct diversion and storage during any one year will be 50.2 acre feet.

\* Not to exceed 4,500 gallons per day by direct diversion or 10 acre-feet per annum by storage.

(If area is unsurveyed, state the location as if lines of the public land survey were projected, or contact the Division of Water Rights. If space does not permit listing all 40-acre tracts, include on another sheet or state sections, townships and ranges, and show detail on map.)

## 7. DIVERSION WORKS

- a. Diversion will be by gravity by means of \_\_\_\_\_  
(Dam, pipe in unobstructed channel, pipe through dam, siphon, weir, gate,

- b. Diversion will be by pumping from offset well Pump discharge rate 75000gpd Horsepower 7½  
(Sump, offset well, channel, reservoir, etc.) (cfs or gpd)

- c. Conduit from diversion point to first lateral or to offstream storage reservoir:

CONDUIT (Pipe or	MATERIAL (Type of pipe or channel lining)	CROSS SECTIONAL DIMENSION (Pipe diameter or ditch depth)	LENGTH	TOTAL LIFT OR FALL		CAPACITY
				Feet	+ or -	
	G.I.P.	4"	3000'	80	+	100 GPM

- d. Storage reservoirs: (For underground storage, complete Supplement 1 to WR1, available upon request.)

Name or number of	DAM				RESERVOIR		
	Vertical height from downstream toe of slope to	Construction	Dam length	Freeboard Dam height above spillway	Approximate surface area when full	Approximate capacity	Maximum water depth

- e. Outlet pipe: (For storage reservoirs having a capacity of 10 acre-feet or more.)

Diameter of outlet pipe (inches)	Length of outlet pipe (feet)	FALL (Vertical distance between entrance and exit of outlet pipe in feet)	HEAD (Vertical distance from spillway to outlet pipe in reservoir in feet)	Estimated storage below outlet pipe entrance (dead storage)

- f. If water will be stored and the reservoir is not at the point of diversion, the maximum rate of diversion to offstream storage will be \_\_\_\_\_ cfs. Diversion to offstream storage will be made by: ☐ Pumping ☐ Gravity

## 8. COMPLETION SCHEDULE

- a. Year work will start 1998 b. Year work will be completed 2000  
c. Year water will be used to the full extent intended 2010 d. If completed, year of first use 1998

## 9. GENERAL

- a. Name of the post office most used by those living near the proposed point of diversion is Lee Vining 93541
- b. Does any part of the place of use comprise a subdivision on file with the State Department of Real Estate? YES ☐ NO ☒  
If yes, state name of the subdivision \_\_\_\_\_  
If no, is subdivision of these lands contemplated? YES ☐ NO ☒  
Is it planned to individually meter each service connection? YES ☐ NO ☒ If yes, When? \_\_\_\_\_
- c. List the names and addresses of diverters of water from the source of supply downstream from the proposed point of diversion: City of Los Angeles; Dept. of Water & Power; Aqueduct Div.,  
Room 1466; P.O. Box 111; Los Angeles, CA 90051
- d. Is the source used for navigation, including use by pleasure boats, for a significant part of each year at the point of diversion, or does the source substantially contribute to a waterway which is used for navigation, including use by pleasure boats? YES ☒ NO ☐ If yes, explain: Mono Lake

## 10. EXISTING WATER RIGHT

\*See Attachment #1

Do you claim an existing right for the use of all or part of the water sought by this application? YES ☐ NO ☐  
If yes, complete table below:

Nature of Right (riparian, appropriative, groundwater.)	Year of First Use	Purpose of use made in recent years including amount, if known	Season of Use	Source	Location of Point of Diversion
Groundwater	N/A	None	N/A	N/A	N/A
Riparian	N/A	None	N/A	N/A	N/A

## 11. AUTHORIZED AGENT (Optional)

With respect to ☒ all matters concerning this water right application ☐ those matters designated as follows:

Forest Supervisor	( 619 ) 873 - 5841
(Name of agent)	(Telephone number of agent between 8 a. m. and 5 p. m.)
Inyo National Forest, 873 N. Main St., Bishop	CA 93514
(Mailing address)	(City or town) (State) (Zip code)

is authorized to act on my behalf as my agent.

## 12. SIGNATURE OF APPLICANT

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.  
Dated May 2 19 91, at Bishop  
California

(If there is more than one owner of the project,  
please indicate their relationship.)

(Signature of applicant)

Additional information needed for preparation of this application may be found in the Instruction Booklet entitled "HOW TO FILE AN APPLICATION TO APPROPRIATE WATER IN CALIFORNIA". If there is insufficient space for answers in this form, attach extra sheets. Please cross-reference all remarks to the numbered item of the application to which they may refer. Send original application and one copy to the STATE WATER RESOURCES CONTROL BOARD, DIVISION OF WATER RIGHTS, P. O. Box 2000, Sacramento, CA 95812-2000, with \$100 minimum filing fee.

### NOTE:

If this application is approved for a permit, a minimum permit fee of \$100 will be required before the permit is issued.  
There is no additional fee for registration of small domestic use.

FOR0053

## GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your water right application, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions are to aid us in that determination.

2. Contact your county planning or public works department for the following information:
- (a) Assessor's Parcel No. 21-120-12
- (b) County Zoning Designation GP
- (c) Will the county have to issue any permits or approvals for your project?  
If yes, check appropriate space below:  
         Grading Permit,          Use Permit,          Watercourse Obstruction  
Permit,          Change of Zoning,          General Plan Change,           
Other: \_\_\_\_\_
- (d) If any permits have been obtained list permit type and permit number:  
N/A
- (e) Person contacted \_\_\_\_\_ Date of contact \_\_\_\_\_  
Department \_\_\_\_\_ Telephone (   ) \_\_\_\_\_
3. Are any additional state or federal permits required for your project? (i.e., Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.)  
For each agency from which a permit is required provide the following information:  
Permit Type N/A  
Person contacted \_\_\_\_\_ Agency \_\_\_\_\_  
Date of contact \_\_\_\_\_ Telephone (   ) \_\_\_\_\_
4. Has your agency, if it is a public agency, or any permitting agency prepared any environmental documents for your project? No If so, you must submit a copy of the latest environmental document with this application, including a copy of the notice of determination.  
If not, will any environmental documents be prepared by any permitting agency, or will you be preparing environmental documents for your project? Yes If so,  
explain: We will prepare an environmental analysis after acquiring needed private lands and prior to final design and construction of the project.
- Note: When completed, the final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your water right application cannot proceed until such documents are submitted.
5. Will your project, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? Yes If so, explain:  
Will generate sewage when completed.

If you answer yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

STATE OF CALIFORNIA  
STATE WATER RESOURCES CONTROL BOARD  
DIVISION OF WATER RIGHTS  
901 P Street, Sacramento  
P.O. Box 2000, Sacramento, CA 95812-2000

**APPLICATION TO APPROPRIATE WATER BY PERMIT  
ENVIRONMENTAL INFORMATION**

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. \_\_\_\_\_

(leave blank)

The following information will aid in the environmental review of your application as required by the California Environmental Quality Act (CEQA). **IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY.** Failure to answer all questions may result in your application being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

PROJECT DESCRIPTION

1. Provide a brief description of your project, including but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated and project operation.

Project will include up to 500 camping units with a total capacity of 2500 people at one time. Campgrounds will include flush toilets, showers, and water hydrants equal to 1/5 units. Campgrounds will provide a parking spur, table, stove pad, and tent pad/unit. Also provided would be 1 or 2 camp fire program areas. Trails and day use parking would also be constructed along Lee Vining Creek.

Construction would take place in increments of 100-200 units over a period of 10-15 years. Very little disturbance of natural features would take place with the road and parking system creating the greatest impact. Trenching would be located as much as possible within the road corridors.

## GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your water right application, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your project by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your project. The following questions are to aid us in that determination.

- 2. Contact your county planning or public works department for the following information:**

(a) Assessor's Parcel No. 21-120-12

(b) County Zoning Designation GP

**(c) Will the county have to issue any permits or approvals for your project?**

If yes, check appropriate space below:

\_\_\_\_ Grading Permit, \_\_\_\_\_ Use Permit, \_\_\_\_\_ Watercourse Obstruction Permit, \_\_\_\_\_ Change of Zoning, \_\_\_\_\_ General Plan Change, \_\_\_\_\_  
Other: \_\_\_\_\_

(d) If any permits have been obtained list permit type and permit number:

N/A

(e) Person contacted	Date of contact
----------------------	-----------------

Department \_\_\_\_\_ Telephone ( ) \_\_\_\_\_

3. Are any additional state or federal permits required for your project? (i.e., Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Dam Safety), Reclamation Board, Coastal Commission, State Lands Commission, etc.)  
For each agency from which a permit is required provide the following information:
- | Permit Type | Agency | Permit Number | Expiration Date |
|-------------|--------|---------------|-----------------|
|             | N/A    |               |                 |

Person contacted	Agency
------------------	--------

Date of contact Telephone ( )

4. Has your agency, if it is a public agency, or any permitting agency prepared any environmental documents for your project? No If so, you must submit a copy of the latest environmental document with this application, including a copy of the notice of determination.

If not, will any environmental documents be prepared by any permitting agency, or will you be preparing environmental documents for your project? Yes If so,

**explain:** We will prepare an environmental analysis after acquiring needed

private lands and prior to final design and construction of the project.

**Note:** When completed, the final environmental document (including notice of determination) or notice of exemption must be submitted to the Board. Processing of your water right application cannot proceed until such documents are submitted.

5. Will your project, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? Yes If so, explain:

Will generate sewage when completed.

If you answer yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

Place of use: Generally Jeffery/Lodgepole Pine, Fir, and Aspen mixture

with understory of great basin brushland species.

8. What changes in the project site and surrounding area will occur or are likely to occur because of construction and operation of your project? Include in your answer such things as approximate number and size/age of trees to be removed or areas of vegetation/brush removal; area or extent of streambed alteration, trenching, grading, excavation, plowing, or road, dam or building construction; etc.. Consider all aspects of your project, including diversion structure, pipelines or ditches, water use, and changes at the place of use.

FISH AND WILDLIFE CONCERNS

N/A A complete EA will be conducted after acquisition of the parcel.

Contact your regional office of the State Department of Fish and Game (DFG) to obtain the information requested in questions 9 through 17 (see page 7 for address and telephone number):

9. Person contacted \_\_\_\_\_

Date of contact \_\_\_\_\_ Telephone ( ) \_\_\_\_\_

10. According to the DFG representative, when did or when will a DFG representative visit the project site area? \_\_\_\_\_

What is the name of the DFG representative who made or will make the inspection of the project site area? \_\_\_\_\_

11. According to the DFG representative, will this project require a Streambed Alteration Agreement? \_\_\_\_\_

12. According to the DFG representative, do any resident or migratory game or non-game fish species occur in the affected stream? \_\_\_\_\_ If so, what species?

What season of the year do they occur in the stream? \_\_\_\_\_

Will a waste discharge permit be required for your project? Yes

Person contacted \_\_\_\_\_ Date of contact \_\_\_\_\_

What method of treatment and disposal will be used? The method of treatment  
and disposal will be determined as part of the detailed environmental analysis  
to be performed after acquisition of the parcel.

6. Have archeological reports been prepared for this project, or will you be preparing an archeological report to satisfy another public agency? \_\_\_\_\_

Yes, SCE has prepared a cultural resources inventory report of the area.

Do you know of any archeological or historic sites located within the general project area? Yes If so, explain: A prehistoric obsidian lithic  
scatter was identified in the area and was determined not to be eligible for  
the National Register of Historic Places.

#### ENVIRONMENTAL SETTING

7. (a) Describe the current land use of the area at the point of water diversion, immediately downstream of the diversion, and at the place where the water is to be used. Attach **TWO SETS** of photographs of these areas, including date and appropriate labels.

Point of diversion: Located just downstream from a 40+ unit campground  
located on private land.

Downstream of diversion: Undeveloped lands, both meadow and timber covered,  
much of which includes the riparian zone along Lee Vining Creek.

Place of use: Currently undeveloped brush land with patches of timber. To  
be developed as future 16 locations.

- (b) Describe the types of existing vegetation at the point of diversion, immediately downstream of the point of diversion, and at the place where the water is to be used. These vegetation types should be shown in the photographs submitted.

Point of diversion: On the edge of a large meadow surrounded by great basin  
brushland species. Some aspen patches.

Downstream of diversion: Large meadow complex with grasses and willow in  
the riparian zone.

Will a waste discharge permit be required for your project? Yes

Person contacted \_\_\_\_\_ Date of contact \_\_\_\_\_

What method of treatment and disposal will be used? The method of treatment and disposal will be determined as part of the detailed environmental analysis to be performed after acquisition of the parcel.

6. Have archeological reports been prepared for this project, or will you be preparing an archeological report to satisfy another public agency? \_\_\_\_\_

Yes, SCE has prepared a cultural resources inventory report of the area.

Do you know of any archeological or historic sites located within the general project area? Yes If so, explain: A prehistoric obsidian lithic scatter was identified in the area and was determined not to be eligible for the National Register of Historic Places.

#### **ENVIRONMENTAL SETTING**

11. According to the DFG representative, will this project require a Streambed Alteration Agreement? \_\_\_\_\_

12. According to the DFG representative, do any resident or migratory game or non-game fish species occur in the affected stream? \_\_\_\_\_ If so, what species?

What season of the year do they occur in the stream? \_\_\_\_\_

### EXISTING STORAGE OR DIVERSIONS

If you currently have an interest in any other water projects which store or directly divert water and this application requests additional water from the same watershed, answer the following additional question for each project:

18. Does the project have fish and wildlife protection requirements? \_\_\_\_\_ If so, list the permit number and specific protection requirements for each project:

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

### CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

FOREST HYDROLOGIST

13. According to the DFG representative, do any plants or animals which are (1) federally identified as candidate, threatened, or endangered; (2) state listed as rare, threatened, or endangered; or (3) listed by the DFG Natural Diversity Data Base, occur in the project area? \_\_\_\_\_ Will they be impacted in any way by the project? \_\_\_\_\_

If so, identify the species and explain how they will be impacted: \_\_\_\_\_

---

---

---

---

14. Does the DFG representative expect that your project will have an adverse effect on any resident or migratory fish populations, any wildlife populations, or any rare or endangered plant or animal species? \_\_\_\_\_ If so, explain:

---

---

---

---

15. What measures relating to your project have been proposed by the DFG representative to protect fish, wildlife or endangered or rare species?

---

---

---

---

16. Will you make changes in your project as recommended by DFG? \_\_\_\_\_

If not, explain: \_\_\_\_\_

---

---

---

---

17. If your application lists wildlife enhancement as a proposed use, what specific species or habitat type will be enhanced? \_\_\_\_\_

---

---

---

---

According to the DFG representative, does your proposed project utilize a sound technique for the purpose of wildlife enhancement? \_\_\_\_\_

---

---

---

---

13. According to the DFG representative, do any plants or animals which are (1) federally identified as candidate, threatened, or endangered; (2) state listed as rare, threatened, or endangered; or (3) listed by the DFG Natural Diversity Data Base, occur in the project area? \_\_\_\_\_ Will they be impacted in any way by the project? \_\_\_\_\_

If so, identify the species and explain how they will be impacted: \_\_\_\_\_

---

---

---

---

14. Does the DFG representative expect that your project will have an adverse effect on any resident or migratory fish populations, any wildlife populations, or any rare or endangered plant or animal species? \_\_\_\_\_ If so, explain:

---

---

---

---

15. What measures relating to your project have been proposed by the DFG representative to protect fish, wildlife or endangered or rare species?

---

---

---

---

16. Will you make changes in your project as recommended by DFG? \_\_\_\_\_

If not, explain: \_\_\_\_\_

---

---

---

---

17. If your application lists wildlife enhancement as a proposed use, what specific species or habitat type will be enhanced? \_\_\_\_\_

---

---

---

---

According to the DFG representative, does your proposed project utilize a sound technique for the purpose of wildlife enhancement? \_\_\_\_\_

---

---

FOREST HYDROLOGIST

ATTACHMENT #1

The filing of this application by the Inyo National Forest should not be construed as an admission by the applicant that the waters in question are necessarily either waters flowing in a surface stream or water from a subterranean stream flowing in a known and definite channel.

The water sought under this application may be determined to be groundwater by a Court of competent jurisdiction at some future point in time. If so, the Inyo National Forest claims the right to divert this water as an overlying landowner under the laws of the State of California.

If the water sought under this application is determined to be either water flowing in a surface stream or water from a subterranean stream flowing in a known and definite channel, the Inyo National Forest claims a riparian right to divert water from an upstream parcel for use on land which abuts the surface stream and/or the underflow of Lee Vining Creek.

## PROJECT EXPLANATION

A number of primitively developed campgrounds exist along Lee Vining Creek between the Poole Powerhouse operated by the Southern California Edison Company (SCE) and the City of Los Angeles's diversion into the LA Aqueduct system. The Inyo National Forest Service would like to consolidate these campgrounds into one area and provide significant improvements to the land owned by SCE. The Forest Service will be negotiating with SCE for land exchange. Development of the new campground will begin as soon as a land exchange is completed and budget authorization is obtained.

Water will be diverted from a well located in the alluvial materials in the bottom of the Lee Vining Creek canyon. Water will then be transmitted via pipeline to the campground.

*Petition for Assignment  
of State Filing  
Application 19789*

Reply to: 2500

Date: May 2, 1991

State Water Resources Control Board  
Division of Water Rights  
901 P Street, P.O. Box 2000  
Sacramento, CA 95812-2000

Dear Sir/Madam:

The Forest Service and the Lee Vining Public Utility District are hereby requesting assignment and/or release of priority of Application 19769. In conjunction with this request, the enclosed applications and petitions are being submitted to the Board from both Inyo National Forest and the Lee Vining Public Utility District.

Inyo National Forest is filing an application to appropriate 19 acre-feet/year of water for the Mono Basin National Scenic Area Visitor Center, an application to appropriate 50.2 acre-feet/year for the Lee Vining Creek Campgrounds, and two change petitions to add the Visitor Center to the place of use under License 2589 and 4570. For additional information, see the enclosed project explanations for each application/petition.

The Lee Vining Public Utility District is filing an application to appropriate 1.69 cfs to satisfy the water needs of the District and a change petition to add Bushati Springs and the "meadow well(s)" as a point of diversion under License 6544. For additional information, see the enclosed project explanation.

If you have any questions regarding this filing, please contact Ms. Luci McKee of my staff or Mr. Don Banta of the Lee Vining Public Utility District.

Sincerely,

DENNIS W. MARTIN  
Forest Supervisor
